

Hello Bobcats!

I am so excited for this opportunity to be at Butterfield Canyon Elementary. Here is a little about myself. I have been in education for over 10 years. I was an elementary school teacher at Granite School District, then moved on to an intern assistant principal at Davis School District.

I have a BA, MS and a MEd and 1 endorsement in STEM. I have been married for 25 years and we have 2 children. I love camping, boating and being outdoors.

My passion is to create a loving and safe environment for ALL students. I believe that every student can learn and develop skills to become what they desire to be in the future. Children are our future and we need to believe in them that they can make a difference.
